

Ohio Section AAPT Equipment Grant

Active members of the Ohio Section interested in acquiring equipment to improve the laboratory or other hands-on experience of students in their Physics or Physical Science classes are encouraged to apply for the Ohio Section Equipment grant. Funds from this grant may be used to purchase any equipment that can be used to directly enhance the student's learning of Physics.

The total yearly amount of this grant is \$1000. The Ohio Section Executive Board may decide to make this award to one applicant or to divide the money amongst several worthy applicants. Grant funds will be administered through the Ohio Section.

This grant is not intended to fund supplies or travel. Recipients of awards will have the expectation of reporting back to the Ohio Section, at Section meetings, on the use of the grant funds in their classrooms. This could be through a How I Do It contribution or workshop.

Deadlines for application, as well as notice of grant recipients, will be announced in a timely manner by the Board.
